Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Framer, React Native

Backend: Node.js, Express.js, MongoDB, REST APIs, JWT, OAuth2, Cloudinary

Tools & Others: GitHub, VS Code, Netlify, Vercel, Render, Postman, Figma, Redux, RTK Query, Socket.io

Soft Skills: Problem Solving, Debugging, Communication, Time Management, Team Collab, Leading

Experiences

Software Engineer Intern | Thinkcrypt.io | August 2025 – Present

- Collaborated with senior engineers to deliver production-ready features on tight deadlines.
- Actively contributed to code reviews, debugging sessions, and feature optimization to ensure clean, reliable releases.
- Improved **client satisfaction** by redesigning a project with a modern UI/UX, which impressed the client and led to **3 additional project** assignments.

Software Engineer (Remote, Contract) | Talentia | March – May 2025

- Integrated **multilingual** support (**English** ⇌ **German**) using **JSON**-based translations.
- **Optimized page performance** by **35%** through efficient component structure and asset optimization, resulting in faster load times and **SEO** advantages with **Next.js**.
- Received **Appreciation Letter** from the client. [View Letter](#).

Projects

Chatsy | *MERN Stack, Redux, Tailwind CSS, Cloudinary, JWT, Socket.io*

[Live](#) | [Github](#)

- **Real-time chat application** using **MongoDB, Express.js, React.js, and Node.js**.
- Implemented **JWT authentication & authorization** for secure user login/registration.
- Integrated **Cloudinary** for user profile image uploads and storage.
- Added **Socket.io** for instant real-time messaging between users.

E-commerce (Blanks) | *Next.js, Tailwind CSS, Node.js, Express.js, MongoDB, AWS*

[Live](#) | [Github](#)

- Real-world Canada based e-commerce integrated with **SSLCommerz** payment gateway.
- Implemented **dynamic shipping, weight-based cost, and wholesale pricing** logic.
- Optimized performance and **SEO** using **Next.js SSR** and **AWS S3** for image hosting.
- Improved overall site efficiency by 40% through **API optimization** and **code refactoring**.

Woo-commerce (Coastal Water) | *Next.js, Tailwind CSS, WordPress, MongoDB* [Live](#) (Client Site)

- Rebuilt a WordPress e-commerce frontend with Next.js using WordPress REST API and MongoDB for modern scalability.
- Achieved 50% faster **load speed** and improved **SEO** through **SSR & SSG** optimization..
- Maintained full **CMS control** via WordPress while enhancing the **UI/UX** with **Next.js** and **Tailwind CSS**.
